

BANGKOK, THAILAND

NEW DAY LEARNING & THERAPY CLINIC

Mission Statement

Our mission is to ensure that students grow to their full potential as independent citizens of the world.

AUTISM STATISTICS

NUMBER OF CHILDREN IDENTIFIED WITH ASD

1 in 68

U.S. Department of
Health and Human Services
Centers for Disease
Control and Prevention

The Centers for Disease Control and Prevention (CDC) estimates that 1 in 68 children (or 14.7 per 1,000 eight-year-olds) in multiple communities in the United States has been identified with autism spectrum disorder (ASD).

- CDC.gov 2004

The data continues to show that ASD is almost five times more common among boys than girls: 1 in 42 boys versus 1 in 189 girls.

ABOUT US

New Day Learning & Therapy Clinic was founded by a group of educators and therapists looking to create a small community environment for students to thrive and grow. We work closely with our families to build a bridge between home and classroom so students can have consistent learning opportunities and support.

OUR SERVICES

THERAPY SERVICES

- Occupational Therapy
- Speech & Language Therapy
- Literacy Support
- Physical Therapy
- Play Therapy
- Art Therapy
- Braille
- Early Intervention

Occupational Therapy

Improves a child's ability to be independent in daily life

- Fine Motor
- Gross Motor
- Sensory Processing
- Activities of Daily Living (ADLs & IADLs)
- Visual Perception
- Visual-Motor Integration
- Executive Functioning
- Play Skills
- Social Skills
- Emotional Regulation
- Self-Care Skills
- Cognitive Skills

Occupational therapy provides a comprehensive approach to support children in developing these crucial areas. Through engaging and tailored activities, therapists help children enhance their abilities to navigate the world around them successfully and confidently. This holistic support not only fosters independence but also builds a foundation for future learning and growth, empowering children to reach their full potential in both personal and academic pursuits.

Speech & Language Therapy

Communication and language challenges encompass a variety of difficulties, including speaking, listening, understanding language, reading, and spelling. These challenges can impact literacy and phonological awareness, as well as social skills. Additionally, issues such as stuttering and voice usage are also common concerns in this area.

Speech and language therapy aims to address these challenges by providing tailored interventions that cater to individual needs. Therapists work collaboratively with clients, often incorporating family members and educators into the process to ensure a supportive environment. Techniques may include exercises to improve articulation, strategies to enhance understanding and expression, and activities designed to boost confidence in communication. Through consistent therapy and practice, individuals can develop stronger communication skills, leading to improved academic performance and enriched social interactions.

Literacy Support

Multi-Sensory Approach to Teaching

- Utilizes a multi-sensory method to instruct phonics, reading, and spelling.
- Enhances students' ability to recognize visual and auditory patterns in words.
- Additionally supports skills in writing, spelling, punctuation, grammar, and letter reversals.
- Includes explicit instruction techniques to ensure clear understanding and retention of concepts.
- Designed to accommodate individual learning structures and needs, providing personalized guidance.

Offers specialized support for students with dyslexia, focusing on their unique learning challenges.

PLAY THERAPY

- Promoting Social Communication
- Emotional Development
- Cognitive Skills
- Social Skills through play

PHYSICAL THERAPY

Develop, maintain and restore a person's maximum movement and functional ability. Licensed physical therapists employ a variety of techniques tailored to individual needs. By focusing on exercises, manual therapy, and education, these licensed professionals work to alleviate pain, improve mobility, and enhance overall physical function. This holistic approach not only aids in recovery from injuries but also plays a crucial role in preventing future impairments and assists in the growth of skills for those with physical impairments. Through personalized treatment plans, individuals are empowered to achieve their highest potential in daily activities, fostering independence and a better quality of life.

Music Therapy

What is music therapy?

Music therapy is a versatile and dynamic approach that utilizes the universal language of music as a tool for healing and self-discovery. Professional music therapists understand that music can evoke emotions, trigger memories, and stimulate the brain in unique ways, harnessing these effects for therapeutic purposes. This adaptable form of treatment is beneficial for various populations, including children and older adults, by supporting developmental goals and improving quality of life. The process is deeply personalized, with therapists tailoring sessions to meet individual needs, whether through creating resonant playlists or engaging in songwriting to express complex emotions. Overall, music therapy offers a creative and non-invasive way to enhance mental, emotional, and physical health.

Benefits of music therapy

- individual and group classes Music therapy uses music to promote healing and enhance well-being.
- Involves activities like listening, singing, playing instruments, and composing.
- Benefits include reducing anxiety, improving communication, and enhancing cognitive function.
- Supports emotional expression, self-awareness, and a sense of connection.
- Effective in hospitals, schools, rehab centers, and community programs.
- Individual classes focus on personal challenges and tailored strategies.
- Group classes offer shared experiences, collaboration, and community building.

Braille and O & M

Braille and Orientation & Mobility (O&M) therapy are essential services for children with visual impairments.

Braille is a tactile writing system that enables kids to read and write using raised dots, empowering them to develop literacy skills and access education.

O&M therapy focuses on teaching children how to safely and confidently navigate their environments, both indoors and outdoors. Through O&M, children learn to use tools like canes and develop spatial awareness, orientation, and independent travel skills. Together, these services help children with visual impairments build independence, confidence, and the ability to engage with the world around them.

ART THERAPY

- Creative Expression: Uses art forms like drawing, painting, and sculpture to explore emotions.
- Emotional Exploration: Helps express feelings and thoughts that are hard to put into words.
- Safe Space: Provides a non-judgmental environment for personal reflection and healing.
- Stress Management: Aids in processing trauma, managing stress, and developing coping skills.
- For All Ages: Beneficial for children, teens, and adults to support emotional growth and mental well-being.

Assessments

Our psychometric assessment service for children with special needs focuses on evaluating key areas of development to provide a comprehensive understanding of your child's abilities and challenges. Through tailored assessments, we target the following areas:

- Cognitive Abilities: Measuring intelligence, problem-solving skills, and reasoning.
- Academic Achievement: Identifying strengths and weaknesses in reading, writing, and math.
- Behavioral and Emotional Functioning: Understanding emotional regulation, anxiety, attention difficulties, and social interactions.
- Developmental Milestones: Assessing motor, language, and personal-social skills.
- Adaptive Behavior: Evaluating practical life skills and social independence.

Early Intervention

children from 3 to 4.5 years old

Benefits of Early Intervention

- **Speech and Language Development:** Supports children with delayed speech, communication difficulties, or language comprehension.
- **Motor Skills:** Helps improve fine motor (e.g., grasping) and gross motor (e.g., crawling, walking) abilities.
- **Cognitive Development:** Promotes problem-solving, memory, and learning skills during critical early growth periods.
- **Social and Emotional Development:** Enhances social interaction, emotional regulation, and building relationships with others.
- **Self-help and Adaptive Skills:** Assists in developing everyday skills like eating, dressing, and independent play.
- **Behavioral Support:** Addresses challenging behaviors and promotes positive interactions.
- **Family Support:** Offers guidance and strategies to families to support their child's development at home and in daily routines.

These areas help ensure that children with developmental delays or disabilities can reach their full potential early in life.

Community Outings to practice real-world skills such as safety awareness, directions and activities of daily living.

New Day Learning & Therapy Clinic offers:

HOSPITALITY & TOURISM
Level 1

Certificate or Diploma

HOSPITALITY
Level 2
Diploma

The Pearson BTEC Level 1 Introductory Diploma in Hospitality and Tourism is designed around practical skills and tasks that place an emphasis on learners demonstrating what they can do rather than what they know in theory.

WHAT IS BTEC?

BTECs are high quality, career focused qualifications grounded in the real world of work. BTEC courses focus on skills-based learning and are designed around themed units. Rather than testing everything together at the end, BTECs are tested throughout the course using assessments based on real-life scenarios. This practical approach allows BTEC learners to develop and apply the knowledge and skills that employers and universities are looking for.

YOUR BTEC COURSES

Here is the range of BTEC qualifications you can choose from, and where they can lead you.

Entry	Level 1	Level 2	Level 3
Same level as:	GCSE		A level

BTECs are all about applying knowledge and skills in real-life scenarios to create career success and develop the employability skills modern businesses need. With a BTEC qualification, you will learn and develop key skills such as:

Organisation
and working to
deadlines

Ability to learn
and adapt

Teamwork,
communication
and leadership

Initiative and
problem solving

The top 5 skills employers look for that you'll learn on a BTEC Hospitality or BTEC Travel and Tourism course:

Time
Management

Good
Communication

A Positive Work
Ethic

Confidence

Being Friendly &
Approachable

74%

of businesses say
they prefer a mix of
academic and technical
qualifications.¹

85%

of 16-18 year old students
in FE colleges take a
vocational course.²

In 2018, nearly

23%

of students entering
University did so with
a BTEC.³

¹CBI Skills Survey, 2018; ²Social Marketing Foundation Report, 2016; ³UCAS and HESA data on entry to HE, 2018

BTEC WORKS FOR HOSPITALITY, TRAVEL & TOURISM

Do you love working with people, have great customer service skills and want to build a career in an industry with plenty of entry level and progression opportunities? Then the travel and hospitality industry could be for you. Employers range from hotels and travel groups to small, family-run businesses.

A BTEC Hospitality or a BTEC Travel and Tourism course offer practical and assignment-based learning. You'll be able to take what you have learnt on your BTEC and apply it directly to your career in these sectors.

What kind of career can I go into?

Here's a taste of the different careers a BTEC in this sector could lead to:

- Catering Manager
- Conference Centre Manager
- Customer Service Manager
- Event Manager
- Travel Consultant
- Tour Operator
- Aviation Operation
